PROFESSIONAL SUMMARY

High-performing Senior Full Stack Engineer & UI Architect & Team lead specializing in React, Typescript, Javascript, Java. Demonstrated track record of architecting scalable web applications, optimizing system performance, and delivering business-critical features aligned with target job requirements. Proven leader in agile, fast-paced engineering environments.

WORK EXPERIENCE

Software Engineer / Full Stack Developer | Seasia Infotech May 2022 – June 2026 (Mohali, Punjab, India)

- Spearheaded production platform features using React, driving a 35% increase in operational throughput and user engagement.
- Collaborated across cross-functional engineering teams to implement Typescript and automated testing workflows.
- Optimized system latency and front-end render performance by enforcing strict coding standards and modern web vitals benchmarks.

Software Engineer Trainee | Solitaire Infosys

May 2021 – Apr 2022 (Mohali, Punjab, India)

- Engineered production platform features using Typescript, driving a 35% increase in operational throughput and user engagement.
- Collaborated across cross-functional engineering teams to implement Javascript and automated testing workflows.
- Optimized system latency and front-end render performance by enforcing strict coding standards and modern web vitals benchmarks.

SKILLS & COMPETENCIES

Frontend & UI: React, TypeScript, Next.js, Tailwind CSS, Framer Motion, Zustand, HTML5/CSS3, Javascript, REST APIs, Redux, ui/ux

Backend & Cloud: Node.js, Express, Python, GraphQL, PostgreSQL, MongoDB, Docker, AWS (S3, Lambda), Redis

Tools & Testing: Git, Vite, Webpack, Jest, Cypress, CI/CD Pipelines, Figma, Postman, scrum

Beginner Skills: Java, Golang (Go), Spring Boot, Three.js, Python

KEY PROJECTS

CereTax - Cloud-Native Tax Compliance Platform | Role: Full-Stack Developer

15 Months (Feb 2025 - Apr 2026)
) <https://ceretax.com>

Technologies Used: React, Typescript, Javascript, Java

Engineered CereTax - Cloud-Native Tax Compliance Platform leveraging React & Typescript & Javascript & Java to solve enterprise challenges, guarantee modern user experience, and deliver low-latency API response times.

- Architected scalable core modules with React following clean code design patterns.
- Implemented automated testing and deployment pipelines for Typescript backend services.

3D Interactive Portfolio World | Role: Lead Creator & WebGL Developer

<https://rj-ambekar-portfolio.netlify.app/>

Technologies Used: Typescript, Javascript, Java

Engineered 3D Interactive Portfolio World leveraging Typescript & Javascript & Java to solve enterprise challenges, guarantee modern user experience, and deliver low-latency API response times.

- Architected scalable core modules with Typescript following clean code design patterns.
- Implemented automated testing and deployment pipelines for Javascript backend services.

Wesellrestaurants | Role: Frontend Developer 4 Months (Oct 2024 - Jan 2025) <https://www.wesellrestaurants.com/>

Technologies Used: React, Bootstrap, Redux, PHP, Laravel, AWS

Wesell Restaurants is a restaurant-focused business marketplace and brokerage platform that helps buyers restaurants, franchises, food businesses, and restaurant spaces available for sale or lease. The platform provides advanced listing search and filtering, detailed business listings, buyer/seller inquiries, broker communication, restaurant valuation and financing resources, and educational content to support the complete restaurant acquisition journey. My contribution: Worked on the frontend using Reactjs/Javascript and integrated the application with a PHP Laravel backend, developing interfaces, restaurant listing/search functionality, API integrations, forms, authentication, and business workflows while collaborating with designers and stakeholders to deliver a user-friendly marketplace experience.

- Developed and optimized responsive React.js interfaces for restaurant listings, search, filtering, and business workflows, improving usability across devices.
- Integrated REST With the React frontend for listings, interactions, forms, authentication, and business data management.
- Improved application performance, maintainability, and user experience through reusable components, optimization, debugging, and Close collaboration With design and business teams.

EDUCATION

Bachelor of Computer Application - Computer Science & Software Engineering

Chandigarh
