

RAJAT AMBEDKAR

Senior Full Stack Engineer & UI Architect

Azad Nagar, Ambala Cantt, Haryana • +91 7056928781 • rajatgautam179@gmail.com • [rj-ambekar-portfolio.netlify.app/](#) • [www.linkedin.com/in/rajat-ambekar-961974231](#) • [github.com/HelloRajatRJ](#)

PROFESSIONAL SUMMARY

4 + years of high-performing Senior Full Stack Engineer & UI Architect specializing in React, TypeScript, JavaScript, Node.js. Demonstrated track record of architecting scalable web applications, optimizing system performance and delivering business-critical features. Proven leader in agile, fast-paced engineering environments.

TECHNICAL SKILLS

Frontend: React, TypeScript, Tailwind CSS, Framer Motion, Zustand, HTML5/CSS3, JavaScript, Agile, Testing

Tools & Testing: Git, Vite, Webpack, Jest, Cypress, CI/CD Pipelines, Figma, Postman

Backend & Cloud: Node.js, Express, JAVA, Python, PostgreSQL, Docker, AWS (Lambda), Redis

Beginner Skills: Golang (Go), Spring Boot, Three.js, Python

WORK EXPERIENCE

Software Engineer / Full Stack Developer

May 2022 – Jun 2026

Seasia Infotech Pvt Ltd — Mohali, Punjab, India

- Spearheaded production platform features using React, driving increase in operational throughput and user engagement.
- Collaborated cross-functional engineering teams to implement TypeScript and automated testing workflows.
- Optimized system latency and front-end render performance enforcing strict standards and modern web vitals benchmarks.

Software Engineer Trainee

Mar 2021 – Apr 2022

Solitaire Infosys — Mohali, India

- Drove platform development driving a 35% increase in throughput and user engagement.
- Collaborated across cross-functional engineering teams to implement JavaScript and automated testing workflows.
- Optimized system latency and front-end render performance by enforcing strict coding standards and modern web vitals benchmarks.

KEY TECHNICAL PROJECTS

CereTax - Tax Compliance Platform • Full-Stack Developer

Jan 2023 – Apr 2026

Stack: [React, TypeScript, JavaScript, Node.js, AWS, Tailwind CSS, React-Admin]

Engineered CereTax — Cloud-Native Tax Compliance platform leveraging React, TypeScript, JavaScript & Node.js to solve enterprise challenges, guarantee user experience, and deliver fast API response times.

- Architected scalable core modules with React following clean code design patterns.
- Implemented automated testing and deployment for TypeScript services.
- Developed reusable React components and responsive layouts using Tailwind CSS.

Wesellrestaurants • Frontend Developer

Jun 2024 – Oct 2024

Stack: [React JS, Next.js, TypeScript, PHP, Laravel, AWS, Bootstrap]

Worked on both the public-facing website and Admin panel using Next.js. Developed responsive UI, reusable components, API integrations, form handling, data management and performance-focused features for the restaurant buying, selling, and leasing platform.

- Developed the public-facing restaurant marketplace using Next.js and React.js.
- Implemented authentication and role-based access admin functionality.
- Built and maintained a feature-rich Admin panel for platform data and operations.

Tracker • Full Stack Lead Developer

Mar 2024 – Dec 2024

Stack: [JAVA, HTML, CSS, GraphQL]

The system allows authorized managers and administrators to monitor employee activity through a centralized dashboard. It can track active work sessions, application usage, and employee activity status. Additionally, the system can automatically capture screenshots of an employee's screen at configurable intervals, such as every 10–15 minutes, while they are working.

- Developed an employee tracking system to monitor working hours, activity status, and application usage.
- Implemented automated screen capture at configurable intervals of 10–15 minutes to monitor work activity.
- Built an admin dashboard to view employee productivity reports, activity logs, and screenshots.

iallo - Web Chrome Extension • Senior Lead Developer

Stack: [React, Chrome Extension API, JavaScript]

iallo is a hospitality technology platform that helps hotels enhance the guest experience by providing digital tools and services for communication, travel information, and guest engagement.

- Built reusable and scalable UI components for different hospitality use cases.
- Collaborated with backend developers to deliver new features and enhancements.
- Implemented responsive layouts for desktop, tablet, and mobile devices.

EDUCATION

Chandigarh University

Bachelors of Computer Application (BCA) in Computer Science & Software Engineering

CERTIFICATIONS & CREDENTIALS

Certificate of Appreciation — Seasia Infotech Services (Issued 2025)
